You asked for comments to help Judge Colleen Kolar-Kotelly to decide the case in the best interest of the consumer. I am a consumer who thinks that Microsoft got a bad rap from the beginning along with most everyone else in our area. I have been very satisfied with Microsoft products. The Companies and States who think the settlement is inadequate are just looking for something for nothing. Bill Gates just knew how to build a better mouse trap and stay ahead of his competition. Sure, maybe Gates has been a little too aggressive in the past, but his company hasn't hurt any consumer that I know of. This whole business from the beginning has been a case of "sour grapes".
